MIT CSAIL Postdoctoral Associate Opportunities

Postdoctoral Associate position is available in the Computer Science and Artificial Intelligence Laboratory at the Massachusetts Institute of Technology in Cambridge, Massachusetts, USA. The successful candidate will work on a joint project between MIT and the Qatar Computing Research Institute (QCRI) in Doha, Qatar, with focus on dialectal speech recognition, semi-supervised learning, multi dialect-speech processing, transfer learning and domain adaptation. The focus will be Arabic. This will continue our research in the multi-genre broadcast challenges (MGB-2, MGB-3).

A Ph.D. in Computer Science is required. Individuals must have several years of hands-on, computer-based experience in algorithm development in speech recognition, and should have good programming skills (e.g., in languages such as C++, Python) and familiarity with the Linux environment. They must be able to work both independently and cooperatively with others, and need to have good communication and writing skills. Knowledge of Arabic is a plus, but is not required.

Successful candidates will spend half of their time at QCRI. The starting date is flexible with an initial one-year appointment.

Interested candidates should send their CVs to Jim Glass (glass@mit.edu) and Ahmed Ali (amali@qf.org.qa).
